PROFILE

Full-Stack Engineer with experience building **scalable, production-ready web applications** using modern frontend frameworks and backend technologies. I've worked across **education and SaaS platforms**, delivering reliable systems with clean architecture, pixel-perfect interfaces, and smooth, intuitive user flows. I take ownership of problems end-to-end, from understanding product requirements to implementing, refining, and maintaining solutions. My background in teaching programming has strengthened my engineering approach: I write clear, maintainable code, communicate effectively, and think carefully about both developer and user experience. I work comfortably in **remote, distributed teams** and enjoy collaborating with people who value quality, continuous improvement, and practical, well-engineered solutions.

PROFESSIONAL EXPERIENCE

Software Instructor <i>Clique Software and More</i> Delivered end-to-end full-stack web development training , covering HTML, CSS, JavaScript, Node.js, and SQL , with an emphasis on hands-on projects and practices, clean code practices, and real-world application development.	10/2024 – 09/2025 Abuja, Nigeria
Liscense Instructor <i>Cisco Netacad</i> Delivered hands-on training in Web Development, Cybersecurity, and Internet of Things (IoT) , equipping students with practical, industry-relevant technical skills and foundational knowledge aligned with global standards.	06/2022 – 06/2024 Abuja, Nigeria
Fullstack Developer <i>GueCyber</i> Designed and built scalable, pixel-perfect web applications, learning management systems (LMS), and websites , with a strong emphasis on performance optimisation, clean architecture, and exceptional user experience.	2023 – 2025 Belgium
Backend Developer <i>Styleit Padi</i> Integrated backend services using Backend-as-a-Service platforms , including Supabase , leveraging Edge Functions to deliver scalable, secure solutions across multiple production-grade projects. With attention to Security, Scalablity, Speed and Optimzation.	08/2025 – 12/2025 Dubai

SKILLS

Frontend Development

- React, TypeScript, JavaScript (ES6+)
- Component-driven architecture
- Responsive & mobile-first design
- Pixel-perfect UI implementation
- Framer Motion (animations & transitions)
- Gsap
- Material UI, Tailwind CSS, Emotion Styled, ShadCN Ui
- Accessibility (semantic HTML, ARIA basics)

Backend Development

- Node.js, Express.js
- RESTful API design & integration
- Backend-as-a-Service (BaaS)
- Supabase (Auth, Database, Edge Functions)
- Firebase (Authentication, Firestore)
- SQL (relational data modelling & queries)

State, Data & Performance

- TanStack Query (React Query)
- Asynchronous data handling
- Caching & performance optimisation
- Error handling & loading states

DevOps & Tooling

- Git, GitHub (version control & collaboration)
- GitHub Actions (CI/CD pipelines)
- Docker (fundamentals & deployment workflows)
- Environment configuration & secrets management

Professional Skills

- Problem ownership & accountability
- Remote collaboration
- Strong communication skills
- Continuous learning mindset
- Attention to detail & code quality
